

BASIC-TECHNIQUE

SLOTFIRE-SYSTEM

- » The Slotfire43 modules consist of 16mm thick MDF board. All other modules or rails (Slotfire 200-800) consist of 19 mm thick MDF board coated on both sides.
- » Precision milling of slots and accurate drilling by computer-controlled CNC milling machine.
- » Surface finishing by two-component polyurethane coating, 100% reflex free and with the best grip and drift characteristics. The kit „Basic“ is delivered without coated surface.
- » The slots are milled 8mm deep and 3mm wide.
- » The track pitch is at the Slotfire43 6cm, at the 200, 300, 600 and 800 systems, 110 mm, except in bottlenecks and chicanes. At the 400 system standard track pitch is 125 mm, optionally, a track pitch of 110 mm is available. The 600 system is also available with 125 mm track pitch.
- » The marginal strip width at the Slotfire43 is 5 cm + 4 cm drift zone (optional), at the 300 system 10 cm + 5 cm drift zone (optional) at the 400, 600 and 800 system 16cm.
- » Lossless power for all modules. One connection module and one power supply are enought. Guaranteed!
- » Through the use of stainless steel braid cars with and without can be used.
